**Subject:** 240619-12653 re LCC/2024/0010 Ringway Tutorial Centre, Cleveleys - Traffic statement

Hello Helen,

Thank you for your email dated 17.06.24 regarding the driveway application LCC/2024/0010 at Ringway Tutorial Centre. In relation to the need for the widened access I wish to provide the following statement in support of the proposal :

The site access driveway serves two schools, Northfold Primary and Red Marsh Willow Campus. Currently the roadway allows only one vehicle in and out at a time as there is insufficient width to enable 2 vehicles to pass each other. As the current layout only allows one vehicle at a time in and out of the site, the remaining vehicles are forced to wait on the road outside the school. In an attempt to try and avoid traffic congestion, pupils start and end times are staggered. However, as Red Marsh Willow Campus is a Special Educational Needs setting, the majority of pupils arrive and leave school by either private taxi or via LCC Transport adapted minibus ,to suit pupils individual transportation needs.

Whilst the proposed works will not remove this issue completely, is envisaged that the provision of a wider access will improve the situation as it will increase the flow of vehicles in and out of the car park and reduce the standing time on the adjacent road so will assist in reducing congestion in the area.

I trust the above is of assistance and can be accepted in support of the application. Please let me know if you require any further information.

Regards,  
Andrew
