Hawthorns Caravan Park

**Operations - Phase A**

- Strengthening and species diversification for Site peripheral woodland and the production of a long term woodland management plan.
- Mineral extraction to continue within the permitted limit of extraction, working southwards to extract rock down to a level of 38m AOD, with subsequent deepening to 23m AOD within the Phase period.
- Extracted mineral to be processed on site at the Back Lane Quarry Plant Site, temporarily stocked and transported off-Site by HGV to point of sale.

**Mineral to be released within Phase A: 12,455,000 tonnes**

**LEGEND**

- Application Boundary
- Other Land Under the Ownership of the Applicant
- Leapers Wood Quarry
- Surrounding Woodland / Vegetation Structure
- Buildings & Roads
- Disturbed Land - Leapers Wood & Back Lane Quarries
- Existing Overburden Tip / Landform
- Contours (5m Intervals) & Spot Heights (m AOD)
- Limit of Extraction within Phase A
- Initial Direction of Working (with Subsequent Deepening)
- Public Rights of Way (PROW)

Please Note. AI and Tarmac Geologists have worked together to ensure a fully integrated mineral extraction scheme will progress concurrently for both Back Lane and Leapers Wood Quarries.
