

Lytham Green Drive Golf Club Limited

Ballam Road, Lytham St Annes, Lancashire FY8 4LE

25th August 2022

Dear Sirs,

Lytham Green Drive Golf Club which celebrated its centenary in 2013, has played an important part in providing a facility for all local residents of Lytham St Annes and the surrounding areas wishing to participate in the activity of playing golf, since the golf clubs inception in 1913.

The club provides employment to over 22 members of staff who all live locally.

Golf is an activity which can be enjoyed by anyone of any age, gender or ability whilst also giving an opportunity to disabled people to take part. It helps youngsters who were never thought of as sporty to take part in a physical activity. It's an activity which encourages families to play together.

The benefits of fresh air and physical activity to a person's wellbeing are well documented and due to the impact of Covid 19 over the last two years probably more so in these uncertain times.

Lytham Green Drive Golf Club has suffered historically during the winter months with inclement weather, suffering prolonged periods of closure during this time.

With this in mind the club has recently undertaken an ambitious drainage plan being implemented over the next few years to be able to offer existing members and new golfers a facility they can use all year round.

Along with this Lytham Green Drive Golf Club is committed to improving the practise areas to encourage young families to participate in the sport and to be an added asset to the local area especially with the new housing developments in the adjacent areas.

Lytham Green Drive Golf Club is working in conjunction with Booth Ventures to provide an all year-round golfing facility for members and the local community as a whole.

Yours faithfully

Ian Stewart
Secretary/Manager
