Comment for planning application LCC/2021/0007

Application number	LCC/2021/0007	
Name	Joanne Carr	
Address	17 Higher Meadow, Clayton-le-Woods, Leyland PR25 5RJ	
Type of Comment	Objection	
Comments	 Wheelton Parish Council strongly objects to this proposal on the following grounds 1. Traffic issues - this is the single route into Chorley from the villages of Brinscall, Withnell, Abbey Village and Wheelton - aside from a large diversion along the M65 and M61 motorways. It is already very congested especially at either end of the working day, and the additional HGVs on this route will only make this worse, coupled with the additional traffic from the development on the opposite side of the road. The has recently been a number of accidents, including a fatality along the A674 and additional traffic will only make getting in and out of Wheelton more dangerous. 2. Air Quality - this is a valley with already poor air quality due to the M61 and A6 /A674/ Exton Lane junctions. Additional HGVs will bring more air pollution . 3. Noise, dust, vibration produced from the quarrying of sand and gravel will adversely affect people's enjoyment of their homes and gardens in the vicinity.
