VIEWPOINT AL - three photographs giving a panoramic view across the field in which the proposed access road connects with the A59

PHOTOGRAPH LOCATION PLAN

**VISUAL IMPACT ASSESSMENT**  
 As the access road rises up from the west it will be in view alongside the woodland to the south from some of the properties on Potter Lane (see Drawing Nos. 1040/PL31 & 32) and also from the public footpaths shown. The route will involve the removal of two small sections of hedgerow vegetation but no loss of trees. The roadside hedgerow on either side of the new entrance will be removed and replaced in order to comply with the Highway visibility requirements and may also require the trimming back of branches adjacent to the roadside woodland to the west, and the southern end of the small copse near the proposed site entrance.
