

VIEWPOINT 40 - zoom lens view from Viewpoint 39

VIEWPOINT 41 - exit of Bezza Brook into River Ribble, Plant Site is located behind riverside vegetation.

PHOTOGRAPH LOCATION PLAN

VIEWPOINT 42 - looking north from Viewpoint 41

VIEWPOINT 43 - riverside vegetation in field south of Plant Site looking east

VIEWPOINT 44 - looking north from Viewpoint 43

VIEWPOINT 45 - looking north from adjacent Seed House

VISUAL IMPACT ASSESSMENT

Similar views to those of 1040/PL36 but from the riverside public access areas to the south, illustrating the impact of the existing riverside trees and vegetation. These and a further intervening field hedgerow help screen views of the Plant Site. **Low** potential visual impact, and channel views of the extraction area to the north. The retention of a 25m wide riverside margin reduces the impact of extraction initially from **Medium** as working continues to depth.

Revised.	Date.	Details.
