SAFETY, HEALTH AND ENVIRONMENTAL INFORMATION

In addition to the hazards/risks normally associated with the type of work detailed on this drawing, note the following

CONSTRUCTION

- Chartered and unchartered services
- Working close to the river, and tidal variance in water level
- Working in close to live carriageway
- Working close to public footways and cycleways and potential interaction with the public
- Chalara disease (ash die back)

MAINTENANCE / CLEANING

- Working close to the river and tidal variance in water level
- Working close to live carriageway
- Working close to public footways and cycleways and potential interaction with the public
- Chalara disease (ash die back)

DEMOLITION / DECOMMISSIONING

- Chartered and unchartered services
- Working close to the river and tidal variance in water level
- Working close to live carriageway
- Working close to public footways and cycleways and potential interaction with the public
- Chalara disease (ash die back)

It is assumed that all works will be carried out by a competent contractor working, where appropriate, to an approved method statement
